VOLUME SIXTY

THE PSYCHOLOGY OF LEARNING AND MOTIVATION

SIKKIM UNIVERSITY
Date 06/11/13
Acc. No. 44414
TEESTA INDUS LIBRARY

Edited by

BRIAN H. ROSS

Beckman Institute and Department of Psychology
University of Illinois, Urbana, Illinois

CONTENTS

Contributors *ix*

1. The Middle Way: Finding the Balance between Mindfulness and Mind-Wandering **1**

Jonathan W. Schooler, Michael D. Mrazek, Michael S. Franklin, Benjamin Baird, Benjamin W. Mooneyham, Claire Zedelius, and James M. Broadway

1. Introduction 2
2. What are the Costs of Mind-Wandering? 4
3. Mindfulness: An Antidote for Mind-Wandering? 11
4. Benefits of Mind-Wandering 17
5. Conclusions: Finding the Right Balance 25

Acknowledgments 28
References 28

2. What Intuitions Are... and Are Not **35**

Valerie A. Thompson

1. Introduction 36
2. Intuitions as Type 1 Judgments 40
3. Intuitions as Memories 47
4. Intuitions as Metacognition 56
5. Intuitions as Feelings 62
6. Summary 63

Acknowledgment 67
References 67

3. The Sense of Recognition during Retrieval Failure: Implications for the Nature of Memory Traces **77**

Anne M. Cleary

1. Introduction: The Sense of Recognition During Retrieval Failure 78
2. On the Nature of Memory Traces: "Feature Bundles" 79
3. The Recognition Without Cued Recall Phenomenon 80
4. Support for a Feature-Matching Theory of Recognition Without Cued Recall 82
5. What is a Feature? 88
6. More Complex Situations of Recognition During Retrieval Failure 96
7. Cases Where Recognition Does Not Occur During Retrieval Failure 104

8. Conclusions and Implications for the Nature of Memory Traces 105
9. Limitations and Future Directions 106
Acknowledgments 109
References 109

4. About Practice: Repetition, Spacing, and Abstraction 113
Thomas C. Toppino and Emilie Gerbier

1. Introduction 114
2. The Distribution of Practice: Preliminary Issues 115
3. Possible Mechanisms of Distributed-Practice Effects 121
4. Rehearsal 127
5. Same Versus Different Context 133
6. Automaticity and Age 138
7. Automaticity and the Type of Memory Task 140
8. Trace Interactions in Repetition 146
9. The Spacing Function and the Retention Interval 151
10. Retrieval Effects and Practice 156
11. Distributed Practice and Inductive Learning 161
12. Reconsidering Theories of Distributed-Practice Effects 163
13. Summary and Conclusions 173
References 175

5. The Rise and Fall of the Recent Past: A Unified Account of Immediate Repetition Paradigms 191
David E. Huber

1. Introduction: The Trade-off Between Integration and Separation 192
2. Marr's Levels of Explanation: From Bayes to Habituation 194
3. Results: Words, Faces, Places, and Semantics 198
4. Conclusions 221
Acknowledgments 221
References 221

6. Does the Concept of Affordance Add Anything to Explanations of Stimulus–Response Compatibility Effects? 227
Robert W. Proctor and James D. Miles

1. Introduction 228
2. Information Processing and SRC 229
3. Ecological Approach to Perception 230
4. Affordance Accounts of SRC Effects 232

5. Ecological Affordance Accounts of SRC Effects 233
6. Representational Affordance Accounts of SRC Effects 242
7. Conclusion 260
References 261

7. The Function, Structure, Form, and Content of Environmental Knowledge 267
David Waller and Nathan Greenauer

1. Function 269
2. Structure 279
3. Form 285
4. Content 289
5. Conclusions 294
References 296

8. The Control of Visual Attention: Toward a Unified Account 303
Shaun P. Vecera, Joshua D. Cosman, Daniel B. Vatterott, and Zachary J.J. Roper

1. Introduction 304
2. Learning Attentional Control Settings: Experiments 1a and 1b 321
3. Introduction of a Distracter After Task Learning: Experiments 2a and 2b 327
4. The Effect of Introducing New Distracters: Experiment 3 330
5. Are Previous Control Settings Retained or Lost? Experiment 4 334
6. Summary and Conclusions 336
Acknowledgments 340
References 340
