

# Psychological Research

An International Journal of Perception, Attention, Memory, and Action

Volume 76

Number 1

January 2012

## ORIGINAL ARTICLES

**Grouping by achromatic color and surface segregation**  
S.C. Masin 1

**Unique sudden onsets capture attention even when observers are in feature-search mode**  
T.M. Spalek · M.R. Yanko · P. Poiese · H.E.P. Lagroix 8

**Auditory and visual temporal sensitivity: evidence for a hierarchical structure of modality-specific and modality-independent levels of temporal information processing**  
C.C. Stauffer · J. Haldemann · S.J. Troche · T.H. Rammsayer 20

**Short-term memory for auditory and visual durations: evidence for selective interference effects**  
A.-C. Rattat · D. Picard 32

**Predicting others' actions: evidence for a constant time delay in action simulation**  
P. Sparenberg · A. Springer · W. Prinz 41

**The bivalency effect: adjustment of cognitive control without response set priming**  
A. Rey-Mermet · B. Meier 50

**The influence of response conflict on voluntary task switching: a novel test of the conflict monitoring model**  
J.M. Orr · J. Carp · D.H. Weissman 60

**Task switching: effects of practice on switch and mixing costs**  
T. Strobach · R. Liepelt · T. Schubert · A. Kiesel 74

**Selective learning enabled by intention to learn in sequence learning**

K. Miyawaki 84

**Artificial grammar learning in children: abstraction of rules or sensitivity to perceptual features?**

A. Witt · A. Vinter 97

**The structure of affective action representations: temporal binding of affective response codes**

A.B. Eder · J. Müsseler · B. Hommel 111

**Semantic alignment and number comparison**

J.I.D. Campbell · S.G. Sacher 119

# Psychological Research

An International Journal of Perception, Attention, Memory, and Action

Volume 76

Number 2

March 2012

**Special Issue: How to reconcile brain and mind**

**Guest Editors: Brigitte Röder · Dietrich Manzey**

## EDITORIAL

**How to reconcile brain and mind?**

B. Röder · D. Manzey 129

## REVIEWS

**Some unsettled problems in behavioral neuroscience research**

F. Rösler 131

**Eye movements and brain electric potentials during reading**

R. Kliegl · M. Dambacher · O. Dimigen · A.M. Jacobs · W. Sommer 145

**Mind and movement**

H. Heuer · S. Sülzenbrück 159

**Assimilation and contrast: the two sides of specific interference between action and perception**

J. Zwickel · W. Prinz 171

**Ideomotor silence: the case of complete paralysis and brain-computer interfaces (BCI)**

N. Birbaumer · F. Piccione · S. Silvoni · M. Wildgruber 183

**System consolidation of memory during sleep**

J. Born · I. Wilhelm 192

**Neurophysiological preconditions of syntax acquisition**

A.D. Friederici · R. Oberecker · J. Brauer 204

**The convergent evolution of neural substrates for cognition**

O. Güntürkün 212

**"I" and the brain**

B. Longuenesse 220

**The mental number line electrified: brain potentials in a numerical flanker task**

A. Fellbrich · W. Nager · T.F. Münte 229

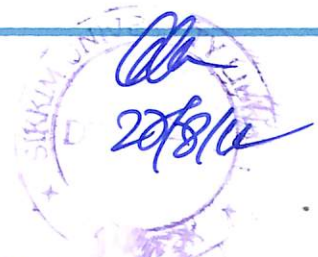

**Time-course analysis of temporal preparation on central processes**

T. Leonhard · D. Bratzke · H. Schröter · R. Ulrich 236

An International Journal of Perception, Attention, Memory, and Action

Volume 76

Number 3

May 2012

## ORIGINAL ARTICLES

### Sequence effects by non-predictive arrow cues

Q. Qian · K. Shinomori · M. Song 253

### Consistent left gaze bias in processing different facial cues

K. Guo · C. Smith · K. Powell · K. Nicholls 263

### Eye movements as a gatekeeper for memorization: evidence for the persistence of attentional sets in visual memory search

L. Huestegge · I. Koch 270

### The homophone effect during visual word recognition in children: an fMRI study

S.D. Newman 280

### Learning and transfer of category knowledge in an indirect categorization task

S. Helie · F.G. Ashby 292

### Evaluative conditioning may occur with and without contingency awareness

R. Balas · J. Sweklej 304

### The motor side of emotions: investigating the relationship between hemispheres, motor reactions and emotional stimuli

C. Önal-Hartmann · P. Pauli · S. Ocklenburg · O. Güntürkün 311

### The effects of alerting signals in action control: activation of S-R associations or inhibition of executive control processes?

R. Fischer · F. Plessow · A. Kiesel 317

### Task switching with a 2:1 cue-to-task mapping: separating cue disambiguation from task-rule retrieval

T. Kleinsorge 329

### Time in action contexts: learning when an action effect occurs

C. Haering · A. Kiesel 336

### The continuous end-state comfort effect: weighted integration of multiple biases

O. Herbolt · M.V. Butz 345

### An attentional approach to study mental representations of different parts of the hand

G. Gálvez-García · A.M. De Haan · J. Lupiáñez · H.C. Dijkerman 364

### Body movement enhances the extraction of temporal structures in auditory sequences

Y.-H. Su · E. Pöppel 373

# Psychological Research

An International Journal of Perception, Attention, Memory, and Action

Volume 76

Number 4

July 2012

**Special Issue: Simulating and predicting others' actions**

**Guest Editors: Anne Springer · Antonia F. de C. Hamilton · Emily S. Cross**

**Simulating and predicting others' actions**

A. Springer · A.F. de C. Hamilton · E.S. Cross 383

**The role of appearance and motion in action prediction**

A.P. Saygin · W. Stadler 388

**Movement kinematics affect action prediction: comparing human to non-human point-light actions**

W. Stadler · A. Springer · J. Parkinson · W. Prinz 395

**How does visuomotor priming differ for biological and non-biological stimuli? A review of the evidence**

E. Gowen · E. Poliakoff 407

**Before, during and after you disappear: aspects of timing and dynamic updating of the real-time action simulation of human motions**

J. Parkinson · A. Springer · W. Prinz 421

**Online prediction of others' actions: the contribution of the target object, action context and movement kinematics**

J.C. Stapel · S. Hunnius · H. Bekkering 434

**Bidirectional semantic interference between action and speech**

R. Liepelt · T. Dolk · W. Prinz 446

**Language-induced modulation during the prediction of others' actions**

A. Springer · A. Huttenlocher · W. Prinz 456

**Expecting to lift a box together makes the load look lighter**

A. Doerrfeld · N. Sebanz · M. Shiffrar 467

**Neural theory for the perception of causal actions**

F. Fleischer · A. Christensen · V. Caggiano · P. Thier · M.A. Giese 476

**Predicting others' actions via grasp and gaze: evidence for distinct brain networks**

R. Ramsey · E.S. Cross · A.F. de C. Hamilton 494

**Observing how others lift light or heavy objects: time-dependent encoding of grip force in the primary motor cortex**

K. Alaerts · T.T. de Beukelaar · S.P. Swinnen · N. Wenderoth 503

**EEG correlates of Fitts's law during preparation for action**

D. Kourtis · N. Sebanz · G. Knoblich 514

**Representing others' actions: the role of expertise in the aging mind**

N. Diersch · E.S. Cross · W. Stadler · S. Schütz-Bosbach · M. Rieger 525

**Long- and short-term plastic modeling of action prediction abilities in volleyball**

C. Urgesi · M.M. Savonitto · F. Fabbro · S.M. Aglioti 542
