

## CONTENTS

HU FU, ROBERT D. KLEINBERG, RON LAVI, AND RANN SMORODINSKY Job security, stability, and production efficiency .....	1
RENÉ KIRKEGAARD A unifying approach to incentive compatibility in moral hazard problems....	25
BRIAN BAISA Auction design without quasilinear preferences.....	53
PHILIPPE BICH AND RIDA LARAKI On the existence of approximate equilibria and sharing rule solutions in discontinuous games .....	79
PÉTER ESŐ AND BALÁZS SZENTES Dynamic contracting: An irrelevance theorem .....	109
LIXIN YE AND CHENGLIN ZHANG Monopolistic nonlinear pricing with consumer entry .....	141
TORU SUZUKI Directives, expressives, and motivation .....	175
SALVADOR BARBERÀ AND ANKE GERBER Sequential voting and agenda manipulation .....	211
CLAUDIO MEZZETTI AND LUDOVIC RENO Repeated Nash implementation .....	249
MAREK PYCIA AND M. UTKU ÜNVER Incentive compatible allocation and exchange of discrete resources .....	287
MARCIN DZIUBIŃSKI AND SANJEEV GOYAL How do you defend a network? .....	331
MARK DEAN AND PIETRO ORTOLEVA Allais, Ellsberg, and preferences for hedging.....	377
ALESSANDRO BONATTI AND JOHANNES HÖRNER Career concerns with exponential learning .....	425

## CONTENTS

TUGCE CUHADAROGLU Choosing on influence .....	477
CHRISTOPHER P. CHAMBERS, FEDERICO ECHENIQUE, AND ERAN SHMAYA General revealed preference theory .....	493
WONKI JO CHO AND BIUNG-GHI JU Multinary group identification .....	513
MOHAMMED ALI KHAN, KALI P. RATH, HAOMIAO YU, AND YONGCHAO ZHANG On the equivalence of large individualized and distributionalized games .....	533
JUAN ORTNER A theory of political gridlock .....	555
HERVÉ MOULIN One-dimensional mechanism design .....	587
HENRIQUE DE OLIVEIRA, TOMMASO DENTI, MAXIMILIAN MIHM, AND KEMAL OZBEK Rationally inattentive preferences and hidden information costs .....	621
RYOTA IIJIMA AND YUICHIRO KAMADA Social distance and network structures.....	655
TAKUO SUGAYA AND ALEXANDER WOLITZKY Bounding equilibrium payoffs in repeated games with private monitoring.....	691
BENJAMIN LESTER, LUDO VISSCHERS, AND RONALD WOLTHOFF Competing with asking prices .....	731
WEI HE, XIANG SUN, AND YENENG SUN Modeling infinitely many agents .....	771
JUAN ORTNER Durable goods monopoly with stochastic costs .....	817
DANIEL FRAGIADAKIS AND PETER TROYAN Improving matching under hard distributional constraints .....	863
BRENDAN DALEY AND PHILIPP SADOWSKI Magical thinking: A representation result .....	909
